
309

Mid Tower

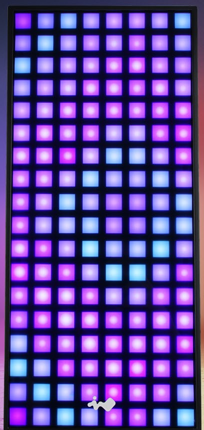
Expressing Through Light

Product Story

Inspired by the beauty of stained glass, the 309 is for RGB enthusiasts that crave their PCs to be a light show, a club or festive enough for the holidays. Create your own designs with 144 addressable RGB LEDs!

Brilliantly Bolder and Brighter

The 309 offers a different experience from the soft and conservative colors of the 307. The 309 is bursting with colors! It’s designed to enhance the visuals of any room, office or business!



Lighten Up!

The 309's front panel is equipped with 144 stunning addressable LEDs. There's a total of 12 built-in lighting modes and you can quickly change each mode, as well as, adjust the brightness with buttons presented on the front I/O panel.

* The addressable cable can only be used with motherboards with addressable headers.

Addressable RGB

Lighting the Way for PC Hardware

The 309 pays tribute to PC hardware by lighting the stage for them! It will be equipped with three dazzling InWin EGO fans which contains 16 LEDs inside the silicon frame.

Exclusive GLOW2 Software

Use our exclusive software to change the lighting or the frequency.The clean and simple interface is user-friendly and highly customizable.

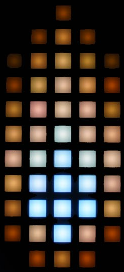
Interactive Lighting Effects Brings Case to Life!

The 309 can interact with its surroundings! The heartbeat light effect reacts to the rhythm of music. So, turn on the jams and enjoy light show!



Versatile Liquid Cooling Support

There are three locations the 309 can accommodate liquid radiators; top, bottom (slim) and rear. A total of seven 120mm case fans can be mounted.
