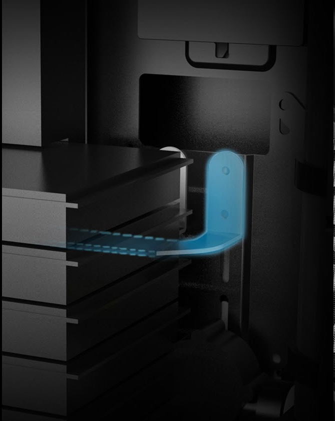
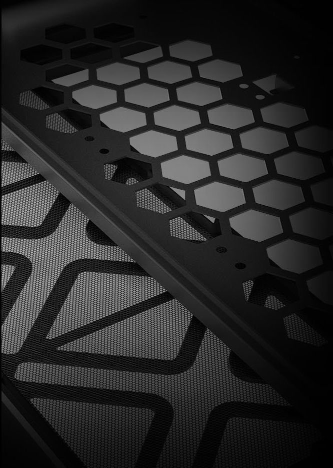
Versatile Cooling Options

Overall, the 303C can accommodate two radiators (top and rear) and three fans at the bottom providing users with a well-cooled rig. The cool air intakes from the bottom creates efficient air flow for quick heat dissipation.





In Win's Attention to Detail

The 303C is constructed with 1.2mm SECC, supports 2.5″and 3.5″drive bays, and its separate PSU chamber provides an ideal climate without interfering with the motherboard and graphics card area. The specialized GPU holder can provide extra support to graphics cards. Yet another detail In Win oversees and manufactures to make PC building much easier.
