X-Frame 2.0 : PC Power Revealed!

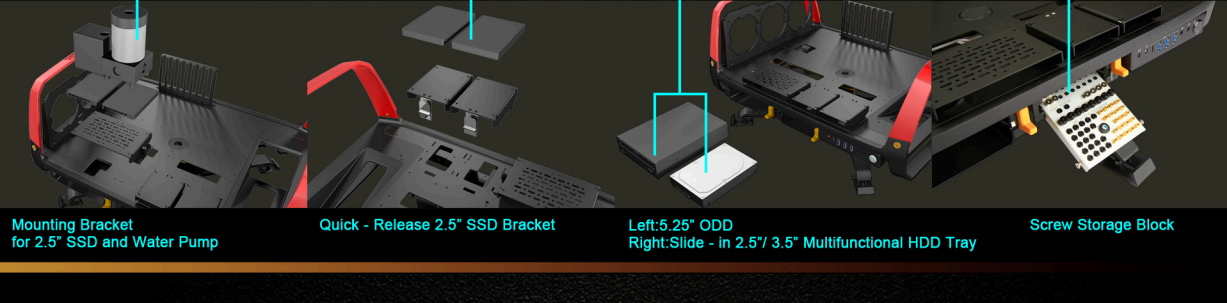

The X-Frame 2.0 inherits the spirit of the original X-Frame by serving as a test bench for professional users. The X-Frame 2.0 is bundled with an In Win branded signature power supply, the SI-1065W.

Its open-frame and full 360 degree free-rotating design provides the ultimate flexibility for professional users.

Test Bench Design for Easy Installation and Removal

There is no limit for professional users to display their build! Breaking through the traditional closed chassis barrier, the X-Frame 2.0's metal structure is designed to serve the purpose of a test bench for professional users.

Professional users can display their hardware from any angle and upgrade their rigs quickly and with ease.
