

307

Mid Tower

Design with Lights. Dazzling the Beauty

Spectrum of Color Unleashed!

The 307 is equipped with 144 stunning addressable LEDs! The front panel's matte surface complements the LEDs to balance the overall brightness. The modern design is completed with quality materials such as tempered glass and a 1.2mm steel structure.

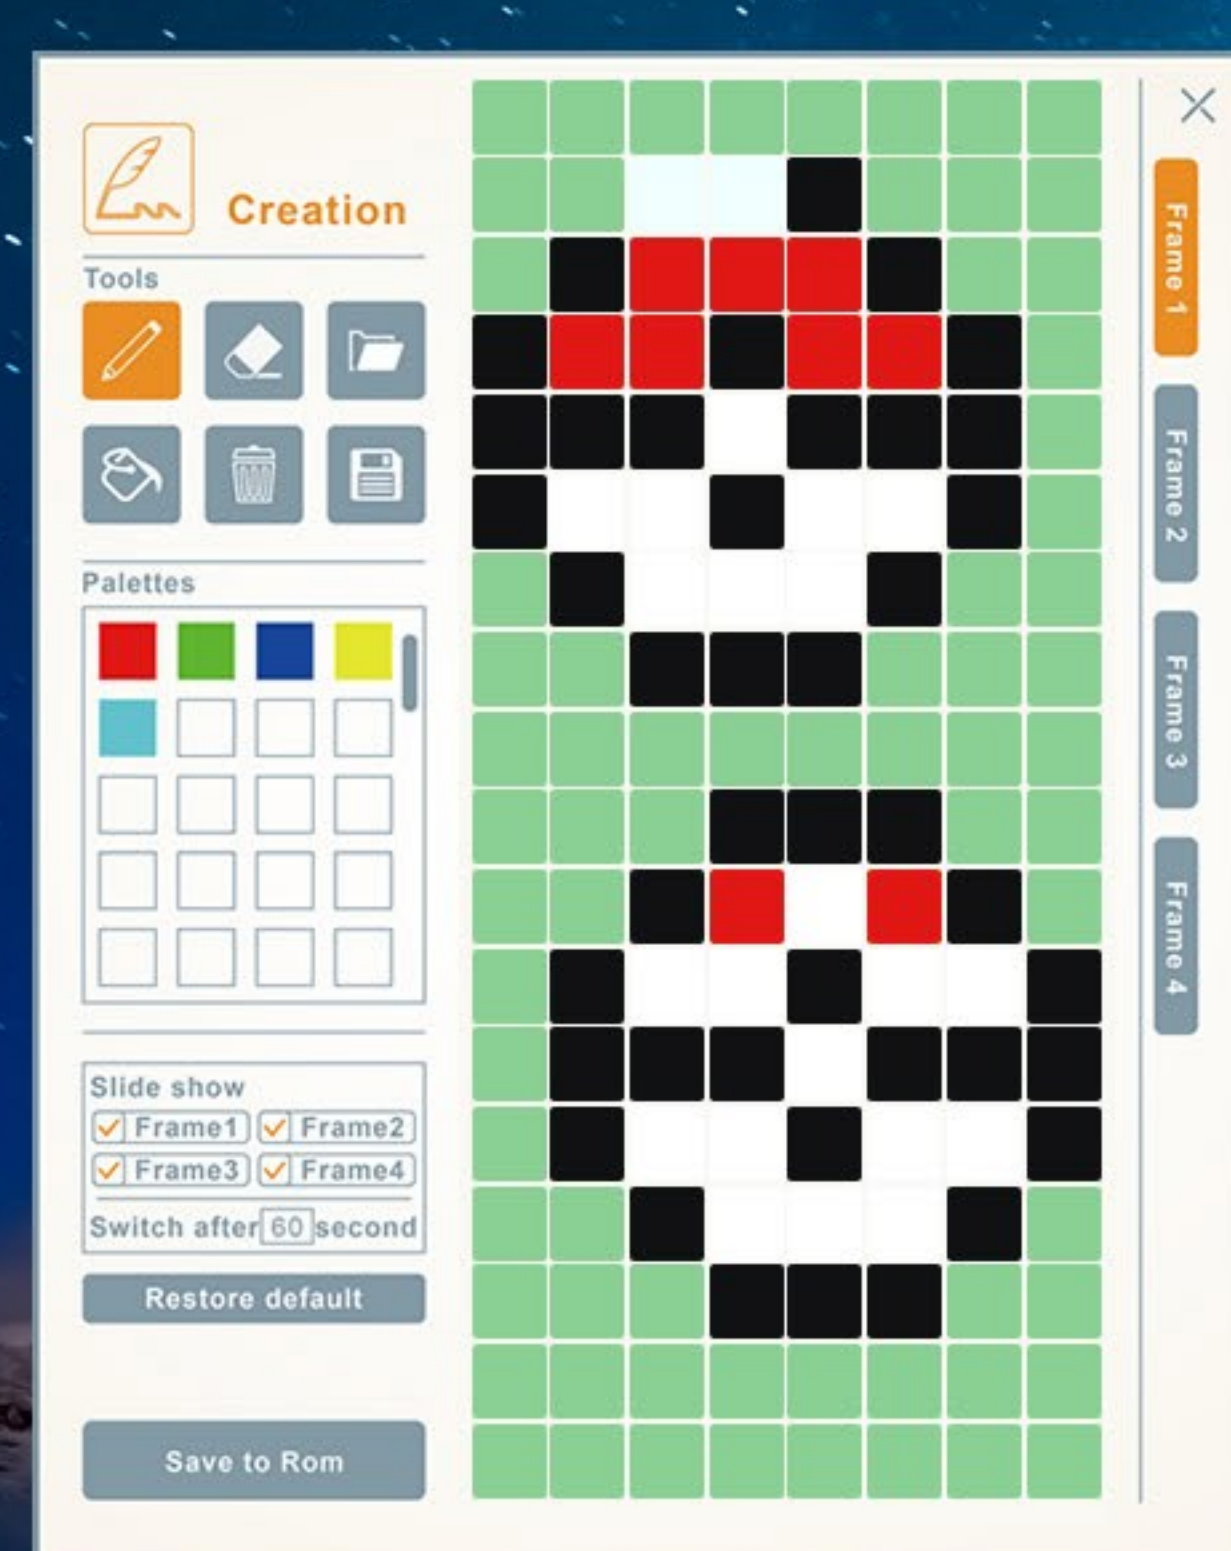

Unlock the GLOW Show!

Download InWin's GLOW software on the official website and witness a total of 12 unique lighting modes! The clean and simple interface is user-friendly and highly customizable. GLOW focuses on functionality by giving options to adjust the brightness and speed. Dedicated buttons along the side I/O switches between modes such as: clock, vortex, hourglass, custom and much more!

Design Your Dream Front Panel

The 307 brings a fresh new design concept by allowing users to create their own designs! Design under creation mode and showcase up to four different masterpieces. Go forth and create, where the only limitation is your imagination!

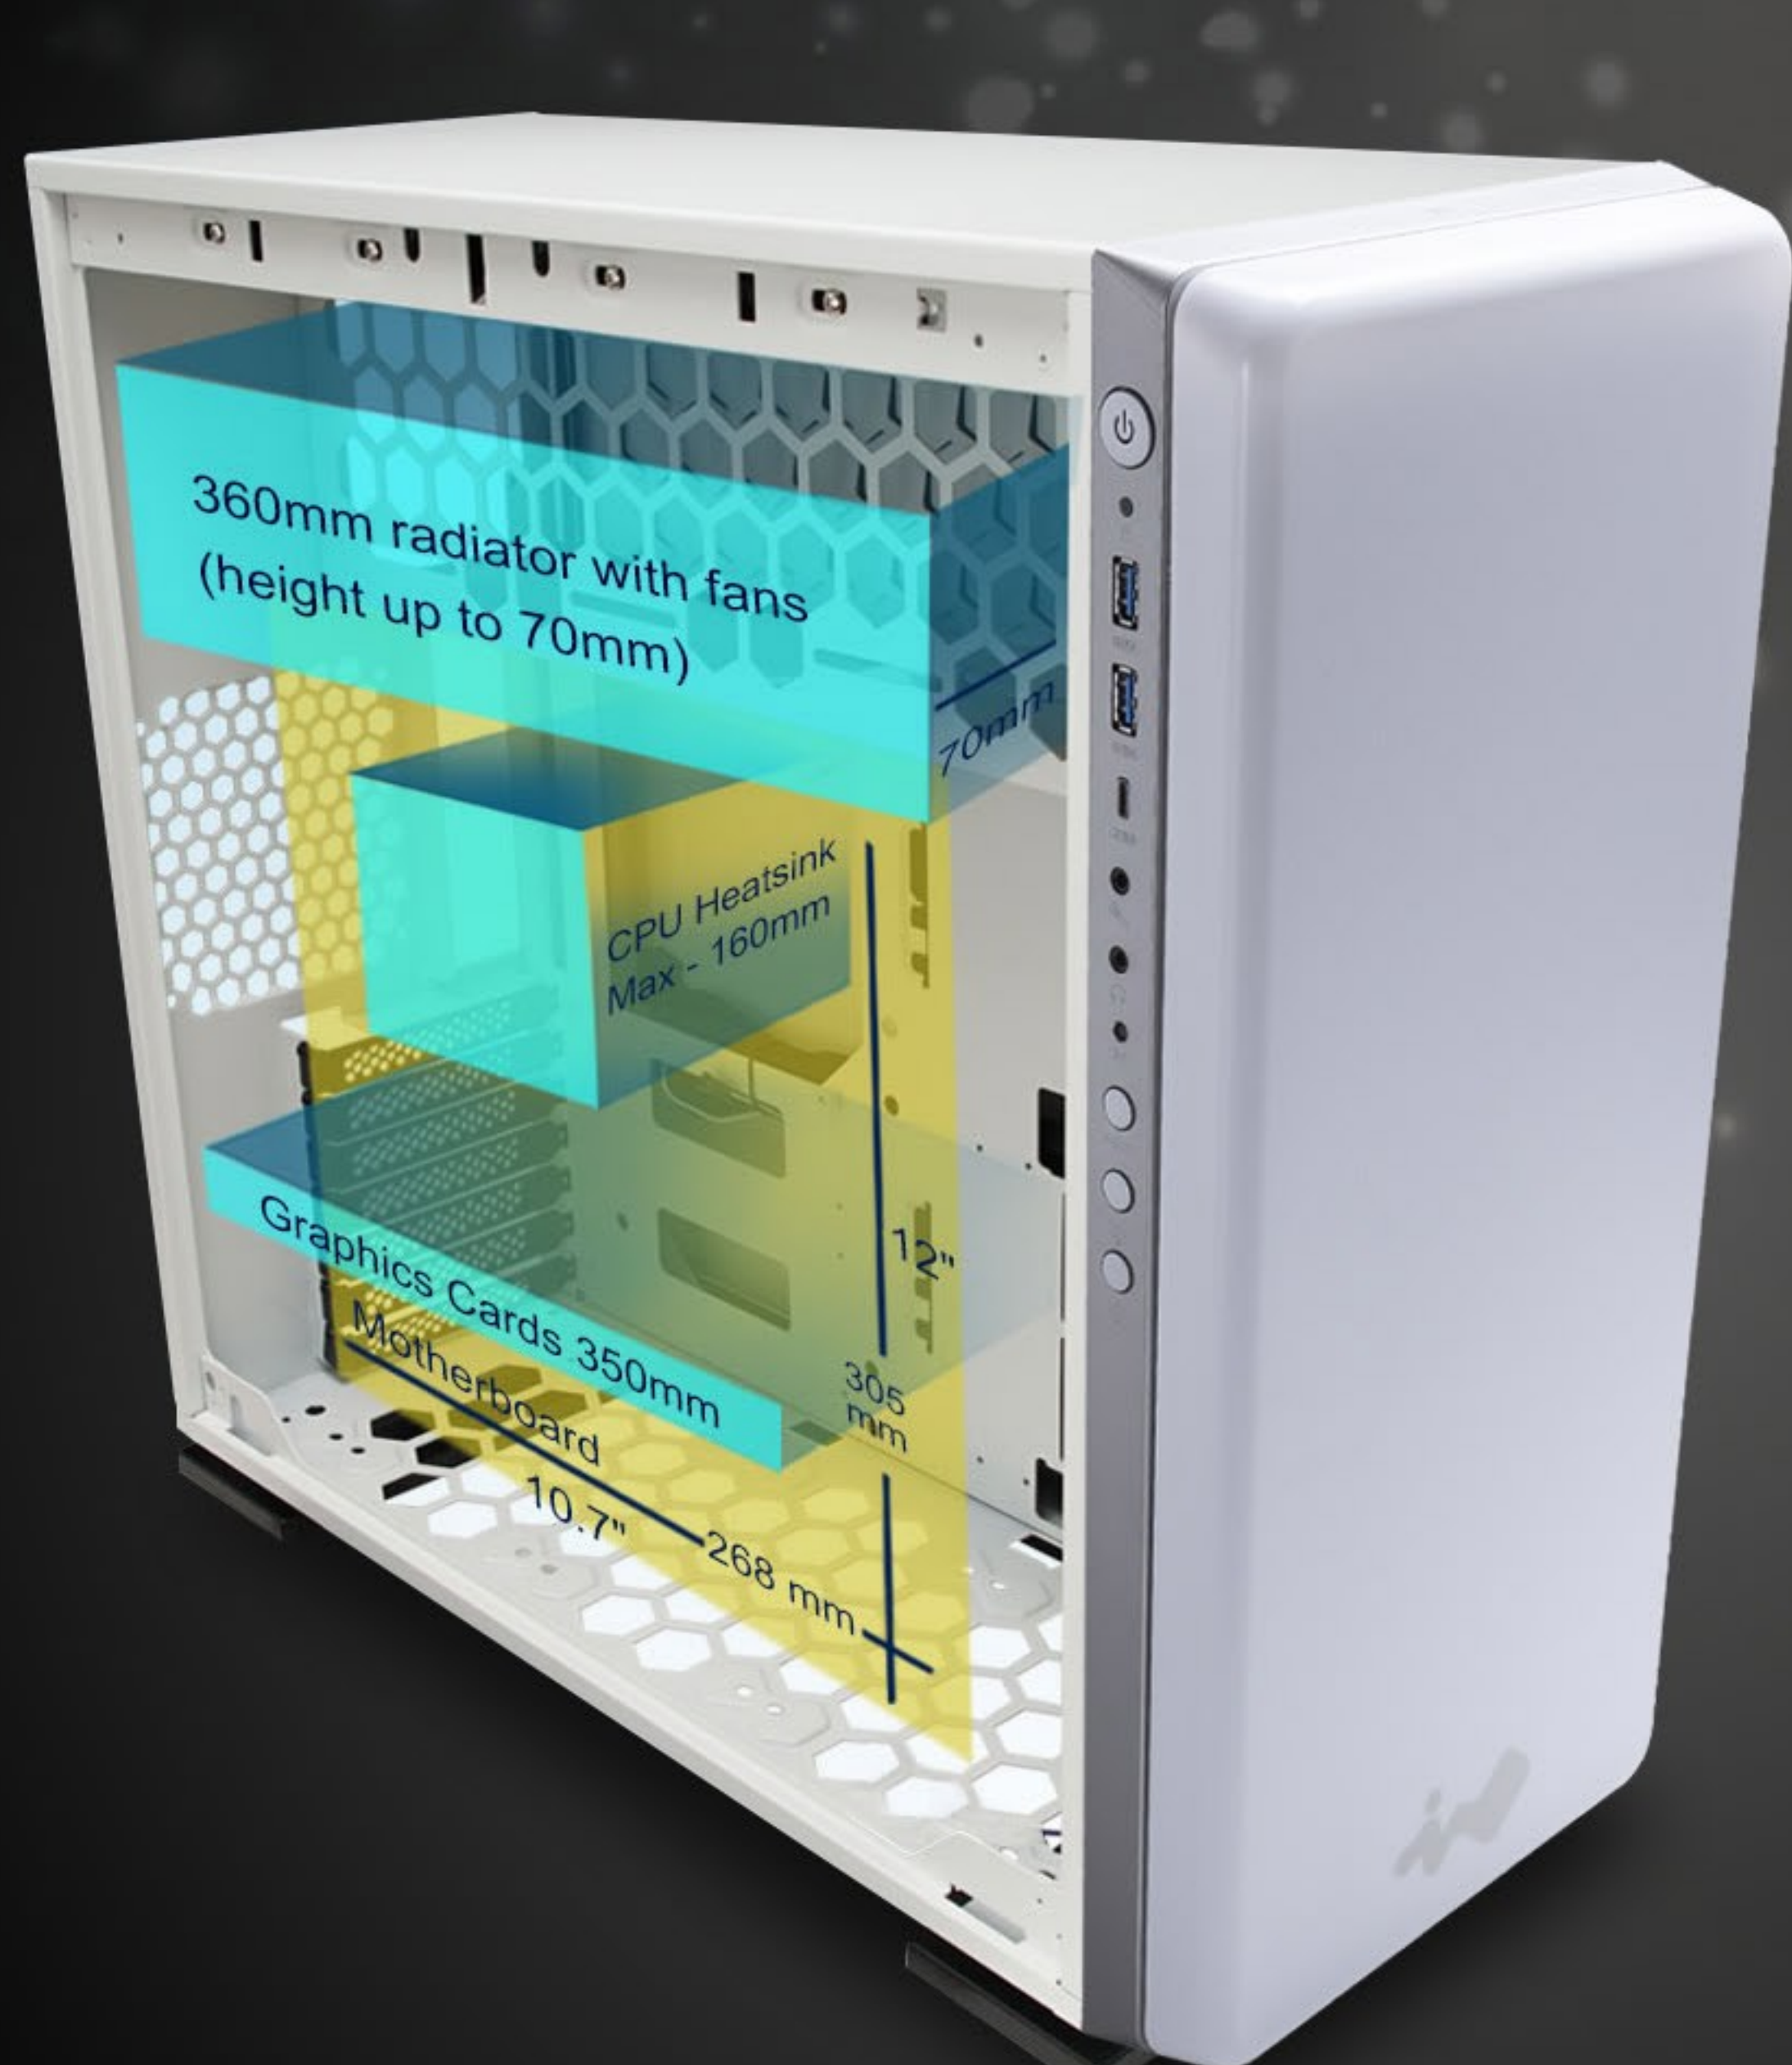

Audio Recognition

The 307's built-in microphone reacts to the room's acoustics and displays the sounds waves. Such as ECG or Candle mode will give a visual presentation to sound so turn up the music and enjoy the light show!

Versatile Cooling Option

There are two locations the 307 can accommodate liquid radiators; top and rear. A total of seven 120mm case fans can be mounted. The cool air intakes from the bottom and creates efficient airflow for quick heat dissipation.
